JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 12 April 1978

*Request*

STAT 1. (Unclassified - MLG) LIAISON Per [ ] request, STAT forwarded to Ms. Mikki Staab, in the Falls Church district office of Representative Joseph Fisher (D., Va.), one copy of our second response to their constituent, [ ] The response was dated 23 March 1978.

✓ 2. (Internal Use Only - GMC) LIAISON Received a call from Beverley Lumpkin, on the staff of the House International Relations Subcommittee on International Organizations. Lumpkin said that she had been unable to find a letter from the Subcommittee to the Agency regarding a request for a briefing on North Korean subversive activities. I told her that we had been similarly unable to find such a letter and that our records indicated only that such a briefing had been mentioned orally earlier this year. Lumpkin said that she would check with Deputy Subcommittee Staff Director Michael Hershman to see whether he could find evidence of a written request on this subject.

On another matter, Lumpkin said that she wanted to make sure that she had identified all Agency documents heretofore made available to the Subcommittee which had been specifically addressed to former National Security Advisor and Secretary of State Kissinger during the period 1970-1973. I told her that I thought the best way to go about such a verification was for her to review the documents once more. At her insistence, however, I said I would check with O/SA/DO/O to see if there was an easier way.
